

COMMUNITY INVESTMENT

At EQT, being a responsible and welcome member of the community is an essential part of our business strategy. We believe that the communities where we live and work should benefit from our operations; and that investing in those communities helps to support our business activities as well as the health and vitality of the community.

EQT FOUNDATION

- Created in 2003, the EQT Foundation continues to make a difference in the communities where we operate by identifying and supporting innovative local programs and initiatives. In turn, our efforts assist in generating a diverse and economically viable business climate, sustaining an environmentally safe and stable infrastructure, and developing an abundant and well-trained workforce.
- To date, the Foundation has awarded more than \$37 million.
- Our key interests fall into four categories: Arts & Culture, Community and Economic Development, Education, and Environment.
- Preference is for projects and programs that directly affect the communities we serve in Pennsylvania, West Virginia, Kentucky, Virginia, Ohio, and Texas.
- Grant recipients must have 501(c)(3) status as granted by the Internal Revenue Service.
- Visit www.eqt.com and click on **Our Communities** to learn more about the EQT Foundation and obtain a grant application.
- To apply for funding, complete the grant application and forward all required information to:

EQT Foundation
Ellen Rossi, EQT Foundation Manager
625 Liberty Avenue, 25th Floor
Pittsburgh, PA 15222

COMMUNITY GIVING

- EQT provides funding to smaller organizations and events that benefit the communities we serve. Examples include food banks, emergency shelters, school recycling programs, senior citizen centers, volunteer fire departments, emergency medical services, county fairs, and community festivals.
